Upgrading the ASE Web Services

As a result of the growing demand on the ASE Web services which combines both the primary website (194.165.154.66) and the online market watch system (www.aselive.jo). The ASE will be upgrading its Internet connection from 42 MBPs into an STM/1 connection of 155 MBPs to serve the growing demand. As a result of this important upgrade, the ASE Internet services will be temporarily disrupted on Thursday 4/9/2008 between 15:00 and 17:00.
